FOUNDERS' DESKS

Mr. Piyush Bhutwala is the Director of Creofoil and Creative Graphics, bringing decades of expertise and innovation to the printing industry.Under his leadership, Creofoil has become a leading manufacturer of advanced screen printing, foiling, and specialty printing equipment, while Creative Graphics has established itself as a trusted name in high-quality screen printing services. His vision has always been to bridge the gap between innovative technology and practical production solutions for printers.

Mr. Bhutwala is recognized as the first industry professional to introduce Smart Foil Technology, offering a complete ecosystem of machines, chemicals, and foil rolls that enables printers to achieve superior quality with greater efficiency and cost savings.

Throughout his career, he has worked closely with many of India's leading offset printing companies as a technical associate, helping them implement advanced decorative printing technologies and improve production processes.

Committed to developing the next generation of printing professionals, Mr. Bhutwala regularly delivers technical lectures and knowledge-sharing sessions at printing technology colleges and institutes, contributing to industry education and skill development.

His passion for innovation and excellence has earned him several national and international printing awards, recognizing his outstanding contributions to specialty printing and technology advancement.

Driven by a commitment to continuous innovation, customer success, and technical excellence, Mr. Piyush Bhutwala continues to lead Creofoil and Creative Graphics toward shaping the future of the global printing industry.
