SCREEN MAKING SET UP

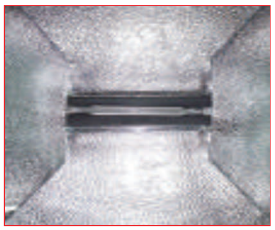

SCREEN EXPOSING MACHINE

STANDARD FEATURES

- Latest Technology For Screen Developing.
- The Life Of Light Is 1000 Hrs.
- Easy Operating System.
- Vacuum (Rubber) Blanket for Better Contact Between Stencil & Film.
- 10mm Optically Clear Glass.
- 3 KW. Instant Start Metal Halied Lamp.
- PLC Control & DIsplay.
- Screen Exposing Frame with Bottom light Source For Paper, Textile, Glass & PCB Industies,

TECHNICAL SPECIFICATION	
Max Exposing Area	30” x 40”
Max. Screen Frame	46” x 56”
Power Supply	220 V AC / 16Amps / 1PH/ 50 Hz
Power Consumption	5.3 HP (3 KW)
Overall Dimensions	L : 71″ | W : 56″ | H : 38″

Uniquely Designed Reflector To Give Maximum Output

Feather Touch Control Panel
